

Junction Mount	Pole Mount
PFA134	PFA134 + PFA152-E
 <p>A technical line drawing showing a junction mount assembly. It consists of a spherical camera lens on the left, connected to a cylindrical mounting bracket on the right. The bracket is designed to be attached to a flat surface, as indicated by the rectangular plate it is shown against.</p>	 <p>A technical line drawing showing a pole mount assembly. It features a spherical camera lens on the left, connected to a cylindrical mounting bracket on the right. This bracket is specifically designed to clamp onto a vertical cylindrical pole, with two curved arms visible that wrap around the pole's circumference.</p>
