Secure and Intelligent Biometric Identification Technology

50,000
Face Capacity

Accuracy
Rate $\geq 99\%$

Recognition
Duration $\leq 0.35s$

Distance
0.3 ~ 2m

Dahua Face Recognition Swing Barrier

Advantages

- Secure access authorization, avoids the risk of cards being lost or copied, and supports liveness detection to prevent access using photos or videos
- Quick face recognition (less than 0.35 second), allows access with just a glance without stopping

Features

You can use face recognition terminal and swing barrier in any combination to meet actual requirements

Face Recognition Terminal

- 7" IPS touchscreen, friendly user interface
- 2MP wide-angle WDR lens; with auto / manual fill light
- 50,000 face capacity
- Deep learning algorithm
- All-in-one design

DHI-ASI7223Y-A-V3

Swing Barrier

- IR anti-pinch, mechanical anti-pinch
- Impact resistant: $\geq 120\text{NM}$
- Lock and Unlock Limit ≥ 3 million times
- Passage Frequency: 20-40 persons/minute
- Supports voice and light alarms when cases such as lingering, unauthorized access and unlock timeout has been detected

DHI-ASGB5XXH-X Series
