# Fast, Stable, Economical

## Economical Switch for Home/Office Networks

Plug and Play

Energy Saving

Reliable Fast/ Gigabit Network

Compact Design

## Advantages

### Plug and Play

Just plug the cables and it'll be ready to go. They are fully compatible with any network devices, including computers, network cameras, printers and so on. Moreover, with Auto-MDI/MDIX, there is no worry about the cables we use.

### Energy Saving

With IEEE802.3az Energy Efficient Ethernet technology, the switch adjusts the power consumption according to the link status and cable length automatically, which helps save power and reduce the cost without sacrificing performance.
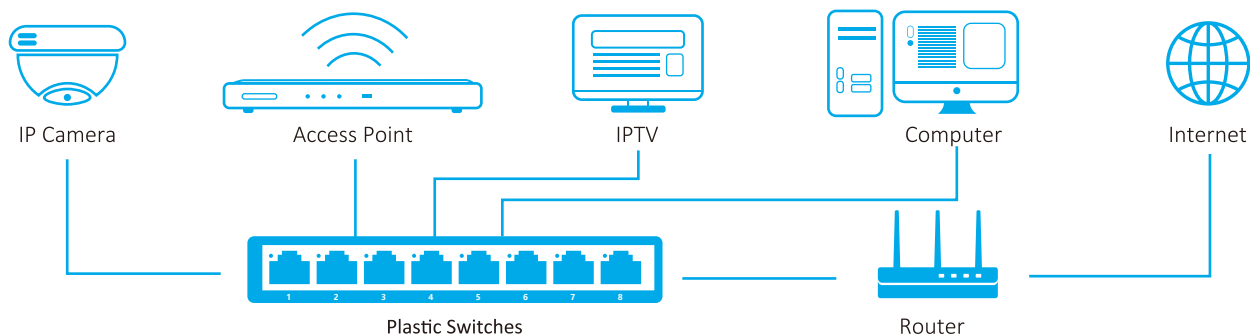

### Reliable Fast/Gigabit Network

With 10/100Mbps or 10/100/1000Mbps ports, it easily expands our home/office network to connect multiple network devices.

### Compact Design

Miniature size and light weight make it easy to deploy so that we can use it anywhere we want.

## Application

IP Camera    Access Point    IPTV    Computer    Internet

Plastic Switches    Router

## Scenes
