Linkage Tracking

What is Smart Tracking

Smart Tracking controls the pan/tilt/zoom actions of the camera to automatically track human/vehicles in motion and to keep the target in the scene. The tracking action can be triggered manually or automatically by preset rules. Once a rule is triggered, the camera zooms in and tracks the defined target automatically. Smart tracking includes PTZ auto tracking, bullet-PTZ integrated linkage tracking, radar-PTZ linkage tracking and thermal-PTZ linkage tracking.

PTZ Auto Tracking

• Benefits

- Accurate tracking
- Fast moving target tracking
- Human/Vehicle tracking
- Long-range tracking

• Product Selection

WinMind PTZ WinSense PTZ

Bullet-PTZ Integrated Linkage Tracking

• Benefits

- Displays both detailed and panoramic views
- Auto calibration
- Multi-scenarios monitoring
- Dual PTZ structure

• Product Selection

PSDW8 Series SDT5X Series

Rader-PTZ Linkage Tracking

• Benefits

- All-weather (darkness, fog, rain, snow, etc.)
- Multi-targets
- Trajectory tracking
- Multi-region division
- Siren and light alarm

• Product Selection

PFR4K Series All PTZ Cameras

Thermal-PTZ Linkage Tracking

• Benefits

- All-weather perception
- Long-range human & vehicle classification
- Strong environmental adaptability

• Product Selection

TPC-BF5401 SD8A/6AL Series
