# Dahua Illegal Parking Detection

Vehicles parked on and off the road increase the risk of traffic congestion and accidents, which can cause injuries and property damages. It is inefficient for personnel to patrol and fine drivers for illegal parking by issuing tickets, which seems like an afterthought punishment and lacks real-time traffic control. The Dahua Illegal Parking Solution detects illegally parked vehicles in real time with a recognition rate of 90%, which greatly improves detection efficiency.

## Features

### Multi-vehicle Detection

Multiple illegally parked vehicles in the no parking zone can be detected.

### Multi-scene Detection

Multiple setting options can be preset to expand the coverage, with capturing radius of up to 150m.

### High Detection Rate

Illegal parking detection algorithm provides detection accuracy of up to 90%, ensuring no wrong detection will be made.

### Complete Chain Of Evidence

Saves several images and metadata of the vehicle parked in the no parking zone to provide ample evidence for investigation.

\*Illegal parking duration can be set according to demand

## Application Scenarios

Crowded Area

High-traffic Area

## Recommended Models

SD8A440-HNT-WA

ITSE0804

DSST9100
