

Customer Flow Management Solution

Regulation Compliant

Helps premises comply with social distancing rules.

High Accuracy

Market-leading accuracy of **>98%** using AI technology.

Real-time Alarm

Alarm when preset value exceeded.

Flexible and Easy to Deploy

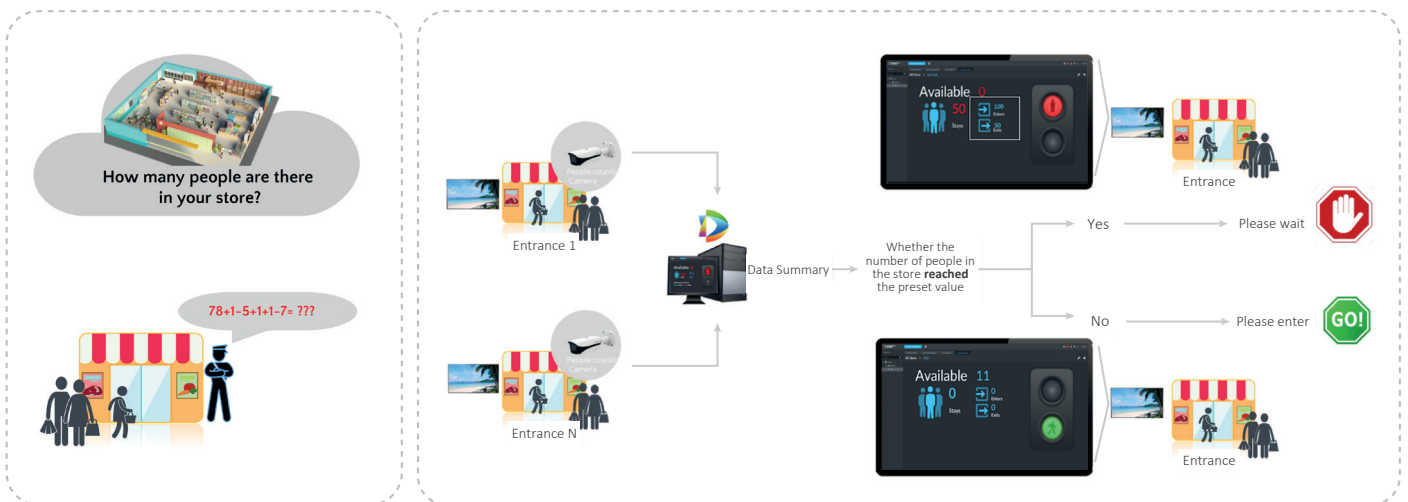

Rapid installation and flexible deployment.

Overview

To address the challenge of social distancing, many public places are implementing restrictions on customer flow. This includes locations such as supermarkets and retail banks.

The solution by Dahua perfectly resolves the problem of "how to accurately and efficiently control customer flow in a premises."

The solution detects how many people are present in the targeted area and display the figure in real-time. If the capacity is reached the system's display immediately indicates no more people should enter.

Traditional Method

Customer Flow Management Solution

Solution Values

Regulation Compliant

Helps to comply with the latest government regulations on social distancing limiting numbers of individuals in a premises.
