Safe and Reliable

Dahua Wall-mounted Data Collection Station

Highlights

Easy to Operate

The 13.3-inch touchscreen and web client offer search, playback, and download options for recordings, and also allows marking of important files.

Configurable Download Priority

Docks in the first row can be configured to have faster download speed than others when the system contains more than one data collection module.

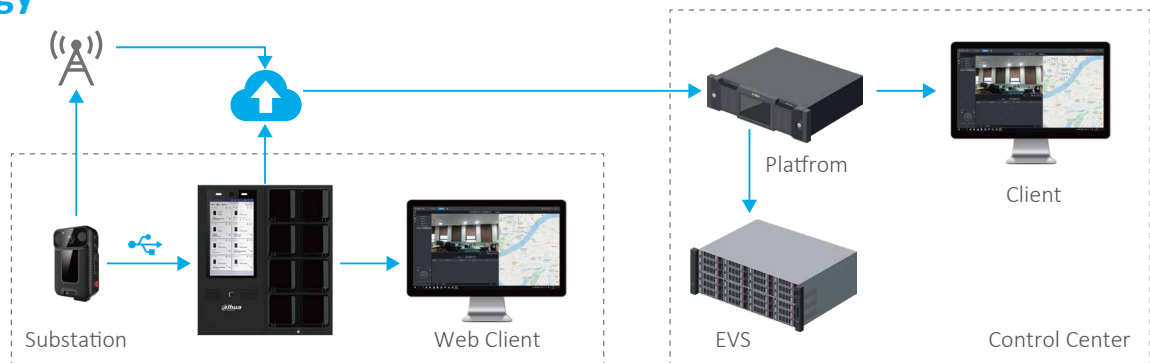

Easy Installation

Presents a wall-mounted split design with control module and data collection module that can be installed and removed separately. The system can accommodate a maximum of 4 data collection modules.

Safe and Reliable

Electronic lock design: each dock can be unlocked using face, fingerprint and password.
Built-in lithium battery: enables unlocking of all docks for 10 days in case the control module turns off.

Topology

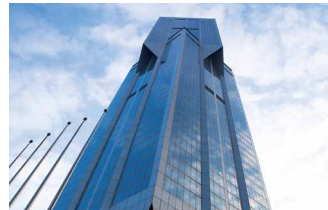

* Some functions still need customization, for details please contact with us.
